

Albemarle completes sale of Mineral Flame Retardants and Specialty Chemicals businesses to Huber Engineered Materials

February 1, 2016

BATON ROUGE, La., Feb. 1, 2016 /PRNewswire/ -- Albemarle Corporation (NYSE: ALB) today announced the successful completion of the previously announced sale of its Minerals business, which includes both Mineral Flame Retardants and Specialty Chemicals, to Huber Engineered Materials. The transaction included Albemarle's Martinswerk GmbH subsidiary and manufacturing facility located in Bergheim, Germany and Albemarle's 50% ownership interest in MAGNIFIN Magnesiaprodukte GmbH, a joint-venture with RHI AG at Breitenau, Austria. Financial terms of the transaction were not disclosed.

About Albemarle

Albemarle Corporation, headquartered in Baton Rouge, Louisiana, is a premier specialty chemicals company with leading positions in attractive end markets around the world. With a broad customer reach and diverse end markets, Albemarle develops, manufactures and markets technologically advanced and high value added products, including lithium and lithium compounds, bromine and bromine derivatives, catalysts and surface treatment chemistries used in a wide range of applications including consumer electronics, flame retardants, metal processing, plastics, contemporary and alternative transportation vehicles, refining, pharmaceuticals, agriculture, construction and custom chemistry services. Albemarle is focused on delivering differentiated, performance-based technologies that deliver innovative and sustainable solutions to its customers. The Company employs approximately 6,900 people and serves customers in approximately 100 countries. Albemarle regularly posts information to www.albemarle.com, including notification of events, news, financial performance, investor presentations and webcasts, Regulation G reconciliations, SEC filings and other information regarding the Company, its businesses and the markets it serves.

About J.M. Huber Corporation (www.huber.com)

J.M. Huber Corporation, headquartered in Edison, New Jersey (U.S.), operates a portfolio of companies with a focus on its core engineered materials businesses. Founded in 1883, today Huber is one of the largest family-owned companies in the U.S. The diversified, multinational company creates products that are used in a broad range of consumer and industrial applications, including oral care, personal care, food, beverage, pharmaceuticals and building materials.

About Huber Engineered Materials (www.hubermaterials.com)

Huber Engineered Materials, headquartered in Atlanta, Georgia (U.S.), is a global business focused on engineered specialty ingredients that enhance the performance, appeal and processing of a broad range of products used in industrial and consumer-based applications. With an expertise in inorganic materials, it has a portfolio of high value products: specialty silicas and silicates, alumina trihydrate, magnesium hydroxide, molybdate compounds, and industrial, food and USP grade calcium carbonate.

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995: Statements in this press release regarding Albemarle Corporation's business that are not historical facts are "forward-looking statements" that involve risks and uncertainties.
