## Section 1 – Conflict Minerals Disclosure

In order to comply with Rule 13p-1 (17 CFR 240.13p-1) under Section 13(p) of the Securities Exchange Act of 1934, as amended, Albemarle Corporation (the “Company”) submits this § 249b.400 Form SD, specialized disclosure report (“Form SD”). As defined in Form SD, the term “conflict mineral” means columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which are limited to tantalum, tin, and tungsten.

The Company has determined that tungsten (in the form of tungstic acid) is a conflict mineral which is necessary to the functionality or production of certain refinery catalyst solutions manufactured by the Company.

The Company has conducted a good faith reasonable country of origin inquiry with respect to the tungsten used in its catalysts for 2017. Based on this country of origin inquiry, the Company has no reason to believe that any of the tungsten necessary to the functionality or production of such catalysts manufactured by the Company in 2017 originated in the Democratic Republic of the Congo or any adjoining country (as defined in Form SD).

In order to make its determination with respect to the country of origin of its tungsten, the Company undertook the following inquiry:

- Identified all suppliers of tungsten to the Company (two suppliers);
- Conducted basic searches through internet search engines for the purpose of discovering publicly available sources linking such suppliers with the Democratic Republic of Congo or any adjoining country;
- Reviewed the company raw material procurement statement on the website of one of the suppliers that stated, among other things, that such supplier has been certified by a third party auditor as a “Conflict-Free Smelter” for its sustainable procurement process; and
- Obtained a representation letter from all of the Company’s suppliers certifying that such suppliers’ tungsten did not originate in the Democratic Republic of Congo or any adjoining country or come from recycled or scrap sources and indicating the facility at which its tungsten was processed.

This conflict minerals disclosure is available on the Company’s website at [www.albemarle.com](http://www.albemarle.com).
