Albemarle and DuPont Announce Collaboration in Hydroprocessing

April 24, 2018

CHARLOTTE, N.C., April 24, 2018 /PRNewswire/ -- Albemarle Corporation (NYSE: ALB), a leader in the global specialty chemicals industry, announced today that it is the primary hydroprocessing catalyst manufacturer for the DuPont™ IsoTherming® hydrotreating technology, making clean fuels production more cost efficient for refiners. IsoTherming® is an innovative hydrotreating technology that can lower capital and operational costs.

Albemarle and DuPont announce their exclusive collaboration in licensing the IsoTherming® hydrotreating technology and providing aftermarket products and services.

"We are excited to collaborate with DuPont in supporting the IsoTherming® technology," said Annemie Donkers, VP Clean Fuels Technologies at Albemarle. "We look forward to further development of our IsoTherming® catalyst application know-how with DuPont, to meet our clients' most challenging process conditions."

Eli Ben-Shoshan, Global Business Leader, DuPont Clean Technologies, adds, "Albemarle is a trusted catalyst manufacturer in the industry which is why we pursued a partnership with them. Together, we offer the global refining and mid-stream industries unique IsoTherming® solutions for hydrotreating and mild hydrocracking backed by solid hydrotreating expertise and cutting-edge innovation."

About Albemarle
Albemarle Corporation (NYSE: ALB), headquartered in Charlotte, NC, is a global specialty chemicals company with leading positions in lithium, bromine and refining catalysts. We power the potential of companies in many of the world's largest and most critical industries, from energy and communications to transportation and electronics. Working side-by-side with our customers, we develop value-added, customized solutions that make them more competitive. Our solutions combine the finest technology and ingredients with the knowledge and know-how of our highly experienced and talented team of operators, scientists and engineers.

Discovering and implementing new and better performance-based sustainable solutions is what motivates all of us. We think beyond business-as-usual to drive innovations that create lasting value. Albemarle employs approximately 5,400 people and serves customers in approximately 100 countries. We regularly post information to www.albemarle.com, including notification of events, news, financial performance, investor presentations and webcasts, non-GAAP reconciliations, SEC filings and other information regarding our company, its businesses and the markets it serves.

About DuPont Clean Technologies
DuPont Clean Technologies applies real-world experience, history of innovation, problem-solving success and strong brands to help organizations operate safely and with the highest level of performance, reliability, energy efficiency and environmental integrity. The Clean Technologies portfolio includes STRATACO® alkylation technology for production of clean, high-octane gasoline; IsoTherming® hydrotreating technology for desulfurization of motor fuels; MECS® sulfuric acid production and regeneration technologies; BELCO® air quality control systems for FCC flue gas scrubbing and other refinery scrubbing applications; MECS® DynaWave® technology for sulfur recovery and tail gas-treating solutions; and a comprehensive suite of aftermarket service and solutions offerings.
